V-Cat added EBSCO's Discovery Service (EDS) in May 2016. Now that we have had some time to test drive the new look for V-Cat, you may have some questions on how to do more in-depth searching utilizing all the additional features of the EDS. Inese will show how to utilize the full capabilities of this new interface. Also, if you have any tips and tricks that you have discovered, please bring these to this session so we can share our experiences.
